## DETAILED ACTION

### *Election/Restrictions*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-41, 67-71, are drawn to display device, classified in class 313, subclass 506.
- II. Claims 42-66, drawn to method of manufacturing the display device, classified in class 445, subclass 24.

The inventions are distinct, each from the other because of the following reasons:

Inventions Group II and Group I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the product as claimed, can be made by another and materially different process. For example, the product claimed can be made by patterning the first insulating film on the first electrode covering its end, forming organic compound film on the first electrode, forming the second electrode on the organic compound film and then patterning the second insulating film on the second electrode covering the periphery of the first substrate.

Because these inventions are distinct for the reasons given above and (1) have

Art Unit: 2879

acquired a separate status in the art as shown by their different classification and (2) because of their divergent subject matter, restriction for examination purposes as indicated is proper.

A telephone call was made to Mr. Mark Murphy on October 16, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
